Panalpina further improves profitability in first half of 2011

Half way into 2011, the Panalpina Group reported further organic gross profit growth despite a slowing environment. In the second quarter of 2011, gross profit decreased by 2% year-on-year to CHF 371 million. Currency adjusted it increased by 10%, supported by organic growth across all regions and segments, especially in North and Latin America. Panalpina's focus on profitability affected volumes. Also, the strength of the Swiss franc had a considerable impact on the financial results of the Group.

All regions and segments improved profitability in local currencies

Gross profit amounted to CHF 371 million in the second quarter of 2011, resulting in a decrease of 2% (+10% currency adjusted). Gross profit for the first half year of 2011 came in at CHF 744 million, an increase of 5% (+15% currency adjusted). Currency adjusted, Panalpina recorded organic gross profit growth across all regions and segments in the second quarter. North America reported the highest gross profit growth in local currencies, closely followed by Latin America. Growth in North America was supported by the Oil and Gas business which has gained traction and new business in other industries. In the segments, gross profit growth was led by Air Freight, which was mainly driven by strong yields in a slowing market. The Group achieved an EBITDA of CHF 54 million in the second quarter. CHF 9 million of EBITDA were lost due to currency translation (CHF 15 million in the first half). The EBITDA-to-gross profit margin was stable sequentially despite the slowing environment and increased year-to-date from 12.4 to 14.7%.

Selected Explanatory Notes to the Condensed Consolidated Interim Financial Statements

for the six months ended 30 June 2011

General information

Panalpina World Transport (Holding) Ltd. (referred hereafter as the "Company") and its subsidiaries is one of the world's leading providers of supply chain solutions, combining intercontinental Air and Ocean Freight with comprehensive Value-Added Logistic Services and Supply Chain Services. Thanks to its in-depth industry know-how and customized IT systems, Panalpina provides globally integrated end-to-end solutions tailored to its customers' supply chain management needs.

Panalpina World Transport (Holding) Ltd. is a limited company incorporated and domiciled in Basel. The registered address is Viaduktstrasse 42, 4002 Basel, Switzerland. The Company shares are publicly traded and is listed on the SIX Swiss Exchange in Zurich.

The condensed consolidated interim financial statements for the six months ended 30 June 2011 were approved for issue by the Audit Committee on 3 August 2011.

Basis of preparation of the condensed consolidated interim financial statements

These interim financial statements comprise the unaudited condensed consolidated interim financial statements of the Company and its affiliates (together referred to as the "Group" and individually as "Group entities") for the six-month period ended 30 June 2011.

They are prepared in accordance with the International Accounting Standard 34 (IAS 34) *"Interim Financial Reporting".* These condensed consolidated interim financial statements do not include the notes contained in the annual consolidated financial statements, and should be read in conjunction with the consolidated financial statements for the year ended 31 December 2010.

The condensed consolidated interim financial statements are presented in Swiss francs (CHF) and all values are rounded to the nearest thousand except when otherwise indicated.

Accounting policies

The condensed consolidated interim financial statements have been prepared in accordance with the accounting policies applied in the consolidated financial statements 2010, except where noted below. Where necessary, comparative information has been reclassified from the previously reported condensed consolidated interim financial statements taking into account any presentational changes made in the consolidated financial statements 2010 or in these condensed consolidated interim financial statements.

The preparation of the condensed consolidated interim financial statements in conformity with IFRS requires management to make estimates, judgments and assumptions that affect application of accounting policies and the reported amounts of assets, liabilities, income and expenses of the condensed consolidated interim financial statement.

It requires management to exercise its judgment and assumptions in the process of applying the Group's accounting policies. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Deviations from estimates and judgments are recognized in the period in which the estimates are revised and in any future periods affected.

Income tax expenses are recognized based upon the best estimate of the weighted average annual income tax rate expected for the full financial year. The current tax rate is not comparable with the previous year tax rate as in certain tax jurisdictions minimum tax payments were owed in previous year due to low profit before taxes.

Changes in accounting policies

Effective 1 January 2011 the Group adopted the revised standard IAS 24 ***"Related Party Disclosures"*** as well as the amendments to IAS 32 ***"Financial Instruments: Presentation - Classification of Rights Issues"*** and IFRIC 14 "***The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction - Prepayments of a Minimum Funding Requirement".***

IAS 24 (revised) *"Related Party Disclosures*
The revised standard supersedes IAS 24 "Related Party Disclosures", issued in 2003. IAS 24 (revised) is mandatory for periods beginning on or after 1 January 2011. The revised standard provides a simplified definition of related parties by clarifying its intended meaning and eliminating inconsistencies from the definition.

IAS 32 (amendment) *"Financial Instruments: Presentation - Classification of Rights Issues"*
The amendment applies to annual periods beginning on or after 1 February 2010. The amendment addresses the accounting for rights issues that are denominated in a currency other than the functional currency of the issuer. Provided certain conditions are met, such rights issues are now classified as equity regardless of the currency in which the exercise price is denominated. Previously, these issues had to be accounted for as derivative liabilities. The amendment applies retrospectively in accordance with IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors". As Panalpina has no rights issues, the adoption of this amendment did not have any impact on the condensed consolidated financial statements.

IFRIC 14 (amendment) *"The Limit on a Defined Benefit Asset, Minimum Funding Requirement and Their Interaction – Prepayment of a Minimum Funding Requirement"*
The amendment corrects an unintended consequence of IFRIC 14 "IAS 19 – The Limit on a Defined Benefit Asset, Minimum Funding Requirements and Their Interaction". Without the amendment, entities are not permitted to recognize some voluntary prepayments for minimum funding contributions as an asset. With this amendment this has been revoked and should be applied retrospectively to the earliest comparative period presented. The adoption of this amendment did not have any impact on the consolidated financial statements of the Group.

In addition, the IASB issued amendments to its standards in May 2010, primarily with a view to remove inconsistencies and clarifying the wording. There are separate transitional provisions for each standard. The adoption of the amendments resulted in changes to the accounting policies but did not have any significant impact on the financial position or performance of the Group.

The following new or revised standards, amendments to standards and interpretations that have been published are mandatory for the Group's accounting periods beginning on or after 1 January 2012 or later periods, but the Group has not early adopted them: IFRS 7 (amended) *"Transfer of Financial Assets"*, IFRS 9 *"Financial Instruments: Measurement and Classification"* and IAS 12 (amended) *"Recovery of Underlying Assets".* Their impact on the consolidated financial statements of the Group has not yet been analyzed in detail but it is not expected to be material, if any.

Change in scope and method of consolidation

The condensed consolidated interim financial statements comprise the financial statements of all companies which are directly or indirectly controlled by Panalpina. Control is defined as the power to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. During the period under review Grieg Logistics AS, Norway was fully acquired and Panalpina Logistics SRL, Buenos Aires has been established. The entities are completely included in the scope of consolidation.

Seasonality

Historically, the Group's results have been subject to seasonal trends. The first half year is normally weaker than the second half year as the first quarter has traditionally been the weakest and the third and fourth fiscal quarters have generally been the strongest. This seasonality is based on many factors, including holiday seasons, consumer demand, climate and economic conditions.

Condensed operating segment information

Management has determined the operating segments based on the reports reviewed by the Executive Board that are used to make strategic decisions. The Executive Board considers the business from a geographic perspective, as the Group's operations are predominantly managed by the geographical location. The Executive Board assesses performance of the operating segments based on a measure of adjusted EBIT. This measurement basis excludes the effect on non-recurring expenditure from the operating segments such as restructuring costs, legal expenses, reorganization costs as well as fines recognized. The measurement also excludes the unrealized gains losses on financial instruments as well as interest income and expenditure, as this type of activity is driven by the central treasury function, which manages the cash position of the Group. Income taxes are not assessed by segment.

In the six months period ended 30 June 2011 no non-recurring expenditure were recognized. To comply with year end 2010 disclosure the segment information for the period ended 30 June 2010 has been adjusted by the expenses for the provision to cover the fines, legal penalties and compliance consultancy fees relating to the settlement of both the U.S. Foreign Corrupt Practices Act (FCPA) and the U.S. anti-trust investigations in the total amount of CHF 128.0 million which were originally included in the segment "North America" (CHF 40.0 million) and in the reconciling item "Corporate" (CHF 88.0 million).

Headquarter activities are reported as "Corporate". These consist of corporate headquarters, including the Corporate Executive Committee, corporate communications, corporate operations, corporate human resources, corporate finance, including treasury, taxes and pension fund management, corporate legal and corporate safety and environmental services.

Intangible assets as of 30 June 2011 include goodwill of CHF 79.7 million (30 June 2010: CHF 42.5 million), brands and customer relations of CHF 17.2 million (30 June 2010: CHF 3.9 million) and software and other intangible assets of CHF 31.9 million (30 June 2010: 26.0 million).

Goodwill is allocated to the Group's cash-generating units (CGUs) identified according to the country of operation. The recoverable amount of a CGU is determined based on value-in-use calculations. These calculations use cash-flow projections based on financial budgets approved by management covering a five-year period. Cash-flows beyond the five year period are extrapolated using estimated growth rates.

There were no impairment charges recorded on goodwill during the six months ended 30 June 2011 and 2010. Management believes that the current key assumptions applied would not cause the carrying value of goodwill to exceed the recoverable amount. As per 30 June 2011 no impairment indicators were determined.

Intangible assets with estimable useful lives are amortized over the period of their respective estimated useful lives to their estimated residual values, and reviewed for impairment in accordance with IAS 36 *"Impairment of Assets"*. Intangible assets, stated at cost net of amortization and impairment charges, include brand name and customer relations, which are amortized on a straight-line basis over the estimated useful life of 5 to 10 years. Accumulated amortization as of 30 June 2011 and 31 December 2010 for brand name and customer relations was CHF 19.0 million and CHF 18.9 million, respectively. Amortization expenses of these intangible assets totalled CHF 1.4 million for the six months ended 30 June 2011 (six months 2010: CHF 1.0 million). There were no impairment charges recorded on these other intangible assets during the six months ended 30 June 2011 and 2010.

Equity

The ordinary share capital and issued numbers of shares as well as the authorized capital have not changed during the interim period 2011. The weighted average number of outstanding shares was 23,642,929 (30 June 2010: 23,672,146).

Dividends

The amount available for dividend distribution is based on the available distributable retained earnings of Panalpina World Transport (Holding) Ltd. determined in accordance with the legal provisions of the Swiss Code of Obligations. On 10 May 2011 the shareholders approved that no dividends will be distributed in respect of the business year 2010 (business year 2009: no dividend).

Share and Option Ownership Program

Management Incentive Plan (MIP) 2010/11

As in previous years an additional management incentive plan was setup in 2011. Participants in this program had the right to purchase shares with a discount of 10% based on the share price equal to the closing price on the SIX Swiss Stock Exchange at the cut-off day. The difference between the discounted share price on the grant date and the share price paid by the participants is recognized as personnel expenses on the date of the issue of the shares. The shares are subject to a one-year lock-up period. For every purchased share under this plan, the Group granted a number of free shares according to a "Free Share Ratio" which is annually set by the Compensation and Nomination Committee. For the current year the ratio was set to 1:4 (1 free share per 4 shares bought). The free shares have a vesting period of one to three years. On non-vested free shares, no dividends are paid and there is no entitlement. The shares cannot be settled in cash.

The fair value of the free shares corresponds to the market price of the shares at the grant date.

The members of the Executive Board and the Boards of Directors did not participate in the above-mentioned incentive plans.

Executive Board Mid-Term Incentive Plan

In the reporting period Executive Board members received 40% of the bonus in company shares totalling to 13,528 shares (previous year: 4,155 shares) with a restriction period of one year. This number of shares will additionally be matched by the company after this restriction period. These additional shares are also subject to a further one-year restriction period.

During the period under review the management received the matched shares (4,155 shares) reflecting the bonus paid in the previous year.

Board of Directors Restricted Stock Award Plan

The restricted stock award plan for the Board of Directors has been introduced in 2009. Part of the remuneration of each Board member is settled in free shares of the company. The corresponding number of shares per member will be based on the share's closing price at the assignment date. The shares have a one-year restriction period. During the period under review the board of directors received 2,562 shares (2010: 0 shares).

Provisions and other liabilities

Provisions are recognized where a legal or constructive obligation has been incurred which will probably lead to an outflow of resources that can be reasonably estimated. Restructuring provisions are recognized when the Group has a detailed formal plan that has either commenced implementation or been announced.

Employee provision mostly relates to certain employee benefit obligations, such as “anniversary” benefits, termination payments and long-service benefits mainly in Switzerland, Germany, Austria, Italy, France and USA. The timings of these cash outflows can be reasonably estimated based on past performance. In addition employee provision includes the liability for the cash settled compensation plan. Significant provisions are discounted by using the corresponding discount rate applicable in respective countries were the obligation occurs.

The balance for claims represents a provision for certain claims brought forward against the Group by customers and forwarding agents. The balance as of 30 June is expected to be utilized within the next two to five years. Long-term claims include an additional provision for probable potential future payments in connection with transport damages as well as a provision to cover the fines, legal penalties and compliance consultancy fees relating to the settlement of the U.S. Foreign Corrupt Practices Act (FCPA).

The management determined the provision based on past performance and its expectation of the funds needed for the future settlement of the claims which are not yet reported.

Apart from outstanding vacation entitlement and the current portion of provisions, as disclosed under long-term provisions, short-term provisions and other liabilities include personnel profit participation, social security and payroll taxes. During the period under review CHF 24.8 million of personnel profit participation (2010: CHF 27.7 million) has been paid out. For the current year, additional personnel profit participation of CHF 12.1 million (2010: CHF 11.4 million) and termination benefits of CHF 6.2 million as well as related social security costs and payroll taxes have been recorded.

Claim provision includes the current portion of certain claims brought forward against the Group by customers and forwarding agents as well as a short-term provision to cover the fines, legal penalties and compliance consultancy fees relating to the settlement of both the U.S. Foreign Corrupt Practices Act (FCPA) and the U.S. anti-trust investigations.

Restructuring provisions arise from planned programs that materially change the scope of business undertaken by the Group or the manner in which business is conducted. Such provisions include only the costs necessarily entailed by the restructuring which are not associated with the recurring activities of the Group. The restructuring provisions concern headcount reductions in all functions mainly in operation and marketing and sales in various countries. The timings of the remaining cash outflows are expected to occur within one year.

Business combinations

On 1 February 2011, Panalpina World Transport (Pty) Ltd. in Sydney announced the purchase of defined tangible and intangible assets and the business of Apollo Forwarding in Perth. Apollo and Panalpina have been close partners for more than 10 years. During that time, Apollo Perth has acted as agent of Panalpina. The purchase enables Panalpina to further enlarge the geographical office coverage in Oceania and widen the customer base. In addition to being a well established customs broker, Apollo Perth also provides international freight forwarding services to its Australia based customers who now gain access to Panalpina's global network. The acquisition has been settled for an initial cash consideration of CHF 2.3 million, with a deferred consideration of up to CHF 0.6 million depending of the financial performance of the acquired business during the two year period ended 31 January 2013.

As per 1 April 2011 the Group acquired 100 percent of the issued share capital of Grieg Logistics AS, a company today encompassing freight forwarding, domestic transportation, warehousing, distribution and customs clearance with operations in fourteen locations. Grieg Logistics, established in 1969, is a leading logistics provider to the Norwegian oil and gas, shipping and maritime industries. It has a broad product portfolio including logistics, freight forwarding and project development. In Norway, Grieg Logistics serves the national market with offices throughout the country. Businesses will add approximately NOK 400 million (CHF 67.0 million) to the Panalpina Group's annual turnover. Grieg Logistics, with its strategic locations throughout Norway, has built up a strong reputation for providing customers with tailor-made services to meet their needs. The acquisition was settled for an initial cash consideration of approximately CHF 60.3 million.

Tangible assets acquired in 2011 include mainly office equipment and vehicles. Intangible assets include customer relationship.

In 2010, there were no acquisitions of subsidiaries or associated companies during the interim period. Details of net assets acquired and goodwill are as follows:
